### Reasons for Allowance

1. The following is an Examiner's Statement of Reasons for Allowance:

Claims 1-2, 4-12, 14-22, and 24-30 are allowable of the prior art of record.

The examiner has found that the prior art of record does not teach or suggest or render obvious a system, method, and computer program product for managing an Address Resolution Protocol (ARP) message received at a bridging device. The major difference in the independent claims not found in the prior art of record is that a bridging device receives an ARP message comprised within an ARP frame and comprising a first contact information for a remote electronic device and a first distance vector representing a first number of hops the message has traversed; comparing the first distance vector to a stored second distance vector corresponding to a stored second contact information and second distance vector representing a second number of hops said second message has traversed and storing one of the messages based on the results of the comparison as set forth in the specification and recited in the independent claims 1, 11, and 21.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
